Thanks Melissa! I DID receive the large (15 MB) PPT file at my personal email account, which I will now open here at work. My work account does not receive attachments over 10 MB or so, but my personal account does, so I use it all the time.

Thanks again and hope your holidays are blessed.....David

Hi David,

I forwarded the original email from Anita Pease that was sent on November 4th with both the PDF and the PowerPoint versions of the training to your personal email account. Hopefully the files reach you ok. If you have any trouble with the files, please let me know and we will figure out another way to get them to you.

Happy Thanksgiving!

Thanks,
Melissa

Rodenticides

Thanks so much for the pdf of this training. I never received the PowerPoint version, probably due to as you suggest the size issues. If you can resend it to my personal email account at [REDACTED] I should be able to get it and download it here at work.

Again, thank you and I hope you a wonderful Thanksgiving...David
